Figure 2(a) in our original manuscript has an error in the legend. Instead of T4, T5, and T6, the sample numbers are supposed to be T1, T2, and T3, respectively. The corrected version of Figure 2 is presented here. There is no effect on the conclusion of the paper. No change in the figure caption is required.¹

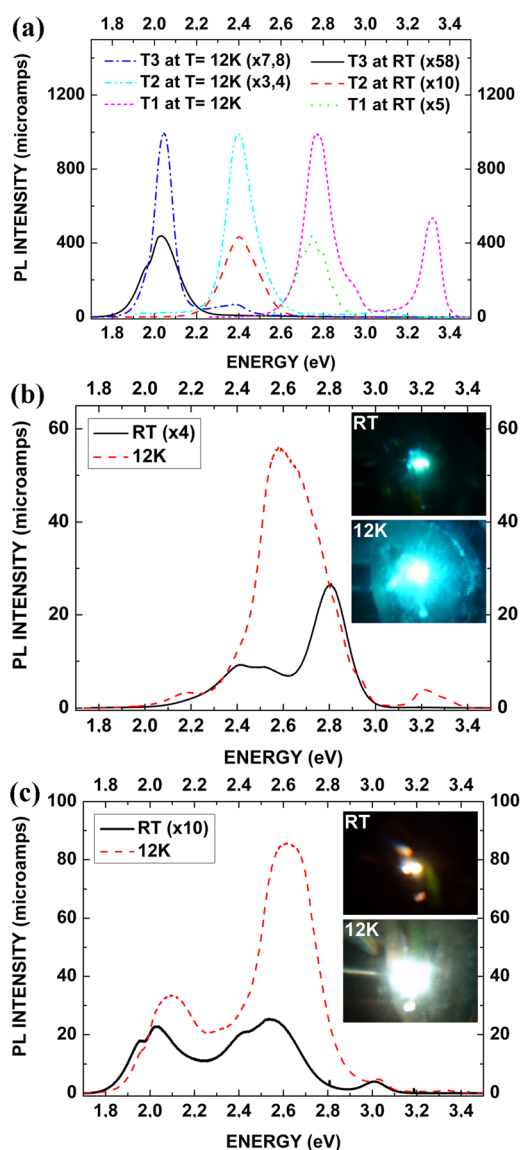

FIG. 2. Room- and low temperature (12 K) PL spectra of (a) samples T1, T2, and T3, (b) T4, and (c) T5 (insets show photographs of the emission color taken during the PL experiments; numbers in brackets correspond to the magnification factor of the respective spectrum).
